

To convert K-LOVE to a LPFM would deny our community access to over the air broadcast of Christian music available only from this source. K-LOVE provides a valuable service in providing a wholesome uplifting source of music and news unavailable from any other stations servicing this community or surrounding area. It is in the public's best interest for K-LOVE to retain their current license status and enable the maximum number of people to have access to this source of Christian music. I am for the most part am homebound and if they lose their current license I will be unable to receive the station which I listen to 90 percent of the time when listening to the radio.
